PART# 33379

1-1/4" ID x 2" OD x 11/16" W Zinc Steel Solid Set Screw Collar

Part Number	Number of Piece	I.D.	Width	O.D.	Screw Length	Screw Size	Seating Torque (in-lb)	Max. Axial Load Capacity (lb)*
		Table 2	Nominal					
33379	1	1-1/4	11/16	2	3/8	3/8-16	300	2200

Dimensions are in inches

*Axial static load values above were determined on a shaft with a hardness not exceeding 35 HRC and screws torqued per table above prior to slippage. Actual values in individual applications may differ.

Table 2

Bore	Tolerance
9/16" to 2"	+0.0005" / +0.0030"

Specification Requirements:

- Dimensions: See Table Above
- Material: Carbon steel able to achieve installation torque and axial load in table above
- Threads Requirement: Collar and cup point screw threads shall have a thread compatibility to meet the seating torque and axial loads in tables above
- Screw Finish: Thermal or Chemical Black Oxide
- Collar Finish: Clear Zinc per ASTM B633, SC 1, Type III
- Marking: Bore ID (size permitting or where marking is impractical)
  Country of Origin per 19 USC 1304
